5 Reasons Why Reach is a Great Partner:

1 Regional, Responsive, and Concierge-Level Support

With offices covering all global time zones, you will connect with our team in your area, who will know your school.

Help is never far away.

2 Educational Expertise within Our Team

We have a global team with both firsthand school experience and IT expertise, ensuring a comprehensive solution, as we understand schools from direct involvement.

3

Speed of Product Development!

Reach excels in managing innovation by gathering global school feedback, ensuring a dynamic product life cycle, and delivering ongoing improvements to users via cloud portals.

4 Purpose Built Features

Features are specifically designed to meet the needs of educational institutions.

Reach's latest features, including Emergency Response, Prep4 Videos, Biometric integrations and more, it's all within Reach!

5 Global Partnerships with Schools, Institutions and People

Reach values education partnerships, tapping into global expertise to enrich our schools. We believe in the power of collaboration, enhancing best practices through top-tier industry partners.

CORE MODULES

How Does Reach Help?

Audit Log A secure log of all transactions and records in Reach that tracks everything. It is a massive fact recorder and the essential tool when you need it most.

Campus Chat Integrated real-time, secure chat capability between student and teacher. All data stays within the Student Life system.

Communication Hub Notice Boards, Chat Rooms and Direct messaging let you engage your entire boarding community in a safe and secure communications space.

Community Report Card Create, share and record custom reports on every aspect of boarding school life. Engage your parent community and track student progress.

Consent Forms Create and track custom consent forms for any group of users. Ideal for parent permission slips, student and staff inductions.

Custom Forms / Surveys Create, edit, and manage customized intuitive forms designed for students and parents. Generate permission forms, waivers, and short surveys.

Customized Reporting Rapid access to insights and management information with a report generator that taps you in to the enormous amounts of data captured in Reach.

Duty and Shift Reporting Share essential knowledge amongst teams with custom duty reports that circulate to relevant staff and directly update student records.

Duty Scheduler Schedule staff across multiple rosters or locations with notifications, noticeboards, communications and record of hours scheduled and hours worked.

Emergency Management This module enables the admin to manage incidents, student locations, real-time chat, status confirmation, alerts, and communication.

Events Coordinator Create, publish, track and report recreation events. Makes managing your events calendar so easy and engages students and parents.

Front Desk Every student/camper, parent, staff member, and invited guest will be checked in and checked out of your campus premises in real-time.

Grading Create, score and report your own scoring forms for measures like room inspections or prep session records.

Leave Manager A sophisticated leave approval system that is able to handle complex audit trails and permission structures.

Meals Dashboard Accurate meal time projections based on student movements on and off campus, including late meals and dietary requirements.

Medication Dispensary A meticulous medications system that ensure a safe and controlled environment to easily manage student medications.

Pastoral Care Track all elements of student behaviour and wellbeing with pastoral care record keeping that lets you set the agenda and design your own parameters.

Rollcall & Registers Flexible rollcall management on any device and at any time. Take rollcalls in person, use QR codes, NFC or biometrics for students.

Student Locator Do you know where your students are? Reach does! Track and monitor student locations and movements with advanced permission controls and record keeping.

Voyage Transport Manager Capture and generate student transport requirements to easily manage your school vehicles, airport drop offs or taxi bookings.
